

CASTERS SELECTION: ROD OR PLATE-MOUNTED WHEELS

For carts that go outside or use ramps or are used on damaged floors, it's preferable to use 6" casters or more in diameter

ROD WHEEL

- Small trips (25' to 30')
- Infrequent use (10-20 per day)
- Weight less than 400 lbs
- Narrow carts (max. width 24")

PLATE-MOUNTED WHEEL

- Longer trips (100' max)
- Higher frequency trips
- Heavy loads (up to 400 lbs)
- Larger carts (greater than 24")
